A2374 – Hold Down Kit

1.66" diameter, two-hole stamped steel hold down kit

Material

The hold down unit is made of stamped steel and is protected with a high-gloss powder coat finish. The kit consists of two hold downs. The unit is designed to be installed on portable mount products with 1.66" O.D. tubing, to prevent them from being moved.

Finish

FusionGuard® primer is applied to all steel components, providing extreme rust fighting protection and durability. Components treated with FusionGuard exceed industry standard by 34% in testing by independent sources.

Color

See website or sales representative for color choices.

Assembly

The hold down kit requires no assembly other than the installation procedure. Installation hardware is not included

Maintenance

Maintenance-free. To clean, spray with a power washer.

Warranty

1-year warranty from the date of purchase.

The Hold Down Kit is designed to accommodate the following products:

- D1110 4' Square Perforated Child's Table
- D1111 4' Square Perforated Table
