F1025— Ultra Ash Urn

Expanded steel ash urn with plastic ashtray top

Material

The ash urn body is 24.25" tall and is composed of 3/4 #9 expanded steel with a diamond pattern. The ash urn features a black plastic top with an 8.13" diameter ashtray. A generous supply of black beauty sand substitute is included.

The ash urn is designed to be portable for flexibility in placement or surface mounted using predrilled .50" holes inside base to prevent movement. Mounting hardware is not included; a 4" wedge anchor for concrete is suggested for anchoring.

Finish

Expanded steel body is protected by the patented Fusion Advantage™ finish. The plastisol coating has an average thickness of .125" and is encapsulated with a richly tinted, high performance powder coating that won't rust, fade, peel, chip, crack, mold or mildew. The finish has been tested to the requirements of ASTM E1354 and determined to be in compliance with California Uniform Fire Code 1103.2.1.4.2.

Color

See website or sales representative for color choices.

Assembly

The ash urn ships fully assembled and ready for use.

Maintenance

The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a mild detergent and water solution to remove surface dirt. Do not clean with solvent or petroleum base products.

Warranty

20-year limited structural warranty with 7-year finish warranty from the date of purchase. See full details on multi-year warranties for components at www.anovafurnishings.com/warranty.aspx.
