F3049
VICTORY FLAT BENCH WITH BACK
8′ expanded metal bench with deep flat seat and back, traditional edge, and in ground mount legs

Material
The bench is 96.25″ long with an extra wide 15.25″ flat bench seat and back. The seat and back are made of 3/4 #9 expanded steel with a diamond shaped pattern and feature a traditional edge. The seat and back are protected by Fusion Advantage™, a plastisol coating with an average .125″ thickness and a high-gloss powder coat. The bench seat will support 200 lbs per linear foot.

The legs are made of 2.38″ O.D. steel tubing protected by a fade resistant powder coat finish featuring a state of the art primer proven to prevent rusting. They are designed to be mounted 18.38″ deep for a sturdy support.

Finish
Fusion Advantage is a heat fused plastisol coating that creates an impervious rustproof barrier and resists UV deterioration, mildew, staining and fading.

The finish has been tested to the requirements of ASTM E1354 and is determined to be in compliance with California Uniform Fire Code 1103.2.1.4.2.

A state of the art primer is applied to all of the under supports, providing extreme rust fighting protection and durability. Treated components exceed the industry standard by 34% in testing by independant sources.

Color
See website or sales representative for color choices.

Assembly
The bench requires some assembly. Stainless steel assembly hardware is included. In ground installation requires site preparation and construction of a temporary support.

Maintenance
The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a solution of mild detergent and water to remove surface dirt. Do not clean with solvent or petroleum based products.

Warranty
20-year limited structural warranty with 7-year finish warranty from the date of purchase. See full details on multi-year warranties for components at www.anovafurnishings.com/warranty.aspx.
