

L1381 — Rendezvous 32 Gallon Dual Recycler

32-gallon steel slat recycler with dual recycler top, two plastic liners and rubber feet.

Material

The 32-gallon dual stream recycler is 32.07" tall and is composed of 12-gauge slotted steel with a .75" gap vertical slotted pattern. The contour recycler top is made of 16-gauge galvanized spun steel and features a 4" diameter opening for bottles and cans and a 5" diameter opening for paper. Tops have factory-applied "Paper" and "Bottles/Cans" decals with recycle logo. Specify black or white lettering. The top includes a 14" security strap and lifts off for easy trash removal.

The receptacle is designed to be portable for flexibility in placement or surface mounted using pre-drilled holes inside the base to prevent movement; optional corkscrew anchor also available. The rubber feet are adjustable to assist in leveling the receptacle. Two 16-gallon reusable plastic liners are included. Liners are made of high-density polyethylene.

Finish

Steel slats are protected by the patented Fusion Advantage™ finish. The plastisol coating has an average thickness of .125" and is encapsulated with a richly tinted, high-performance powder coating that won't rust, fade, peel, chip, crack, mold or mildew. The finish has been tested to the requirements of ASTM E1354 and determined to be in compliance with California Uniform Fire Code 1103.2.1.4.2.

Fade-resistant, powder coated steel top features a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.
