

L2040— Latitude French Door Receptacle with Bonnet Top

40-gallon steel slat receptacle with French doors, bonnet top, plastic liner and rubber feet.

Material

The receptacle is 42.65" tall and is composed of 12-gauge slotted steel with a .75" gap vertical slotted pattern. The receptacle features twin side opening doors that pivot on heavy-duty 316L stainless steel hinges. A stainless-steel door latch is hidden and requires a special tool to open for added security. The built-in bonnet top is made of 16-gauge galvanized steel and features a 6.94" tall and 18.07" wide waste opening on the side.

The receptacle is designed to be portable for flexibility in placement or surface mounted using pre-drilled 0.38" diameter holes inside the base to prevent movement; optional corkscrew anchor is available. The rubber feet are adjustable to assist in leveling the receptacle. Includes a reusable plastic liner made of high-density black polyethylene.

Finish

Steel slats are protected by the patented Fusion Advantage™ finish. The plastisol coating has an average thickness of .125" and is encapsulated with a richly tinted, high-performance powder coating that won't rust, fade, peel, chip, crack, mold or mildew. The finish has been tested to the requirements of ASTM E1354 and determined to be compliant with California Uniform Fire Code 1103.2.1.4.2.

Fade-resistant, powder coated steel top features a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.
