

MIX2950T — Mixx 42" x 72" Thermory® Counter Height Table

6' counter height table with Thermory planks, steel frame and legs, portable

Material

The 71.85" long counter height table features a table top that is composed of 0.75" x 3.5" (1" x 4" nominal dimensions) Thermory planks.

The table frame and supports are made of 10-gauge steel. The table supports have a radiused edge for accurate frame-to-frame alignment for communal dining set-ups. The table is designed to be portable for flexibility in placement. Each foot features a stainless steel adjustable glide for leveling and to protect your floors. Matching stool is also available.

Low-maintenance Thermory is made from thermally-modified North American White Ash—a sustainably-harvested and renewable temperate hardwood. It is an environmentally-friendly hardwood and a great alternative to commonly used tropical rainforest hardwoods because of its dimensional stability and Class 1 durability (25+ years). Thermory has a lower carbon footprint than tropical hardwoods.

Finish

Fade-resistant, powder coated steel components feature a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

Thermory is a lustrous chocolate brown color when new and will naturally age to uniform silver/gray over time. The color-changing process begins immediately and varies with the amount of UV-exposure.

Color

See website or sales representative for color choices.

Assembly

The table requires some assembly; stainless steel assembly hardware is included. The table top ships pre-assembled. Leveling foot glides may require adjustments.

Maintenance

Clean with mild soap and water. Let dry thoroughly. To maintain original color, regularly apply standard deck oil, such as Cutek® Extreme Wood Protection Oil.

Warranty

10-year limited structural warranty from the date of purchase. See full details on multi-year warranties for components at www.anovafurnishings.com/warranty.aspx.
